Dear Harold Weisberg

Thank you very much for replying to my letter of May 10. I can fully understand why a J.F.K. Convention would not work. I didn't realize that there was so much competion among J.F.K. "researchers" and authors. I was wondering then how about a debate among two very highly respected authors?

Another question I have for you is would you be willing to put me in touch with some other researchers and writers. I found out that the only way to learn something is to get other people's views and ideas. I am in a stand still just as I'm sure with you because it is impossible to come up with adequate answers while there are many yet unanswered questions. I am keeping an open mind, in fact if anybody could show me one possible piece of fact the Lee Harvey Oswald was capable of killing John F. Kennedy I would be willing to accept the fact that L.H.O really did

did pull the trigger of the rifle, shot killed J.F.K.

One other question real quick is there any other documents that have not been released through the F.O.I.A. If so could you please tell me because I have a lawyer who would be willing to fight the government for free or little cost. It would also be a good experience for a pre law student like myself.

Let me thank you for taking your time out reading this letter and your kindness for an amateur researcher like myself, who is just beginning to fully understand the complicated matter of researching the J.F.K. assassination.

Sincerely
Joseph B Douglas
